

# **Roe-tation**

© Carol Wax, 2016

The earth has made a new rotation  
That finds us at a darker station  
Of scary times for the nation  
Clouding up our celebration

I share your fear and frustration  
Caused by such vile aberration  
But don't retreat in hibernation  
Nor validate with normalization

Purge the stain of segregation  
Stand for no more molestation  
Protect those here through immigration  
And all our rights from violation

Use the wrongs for motivation  
To form a stronger federation  
Voice your rage and indignation  
March with signs of protestation

Stay informed with education  
Denounce all lies and fabrication  
Support your cause with a donation  
Fight against abomination

We can prevent annihilation  
Have hope again for jubilation  
Through love and firm cooperation  
Move forward with this affirmation ...

**YES WE CAN!**
